Re: RFHP Grant Funding Application

Dear Friends of Raystown Lake,

The PA Fish and Boat Commission fully supports the cooperative habitat improvement plan at Raystown Lake, Huntingdon County. The shoreline stabilization and submerged habitat structures will be a tremendous benefit to the water quality, fish habitat and angler access at the lake. Our ongoing teamwork with the U.S. Army Corps of Engineers and the Friends of Raystown Lake has been a critical part in improving the fish habitat at the lake for the past three decades. Projects at Raystown Lake have been very successful in the past and we will continue to work together on future projects. We look forward to working with our partners on this project as it supports the mission of the PFBC.

Yours in conservation,

Ben Page
PFBC Lake Habitat Section Chief
