July 16, 2019

The Tri-County Bass Anglers Club is working as a partner with the Indiana Division of Fish and Wildlife on our impoundment aquatic habitat improvement program. The Patoka Lake habitat project is included under this program.

The club is providing much needed labor and financial assistance for this program. The Division of Fish and Wildlife fully supports the Tri-County Bass Anglers Club inclusion in this project and for the Mossback grant they are applying for to add to the Patoka Lake habitat project through the Friends of Reservoirs small projects grant program.

Sincerely,

A handwritten signature in black ink that reads "Dan Carnahan". The signature is written in a cursive, flowing style.

Dan Carnahan  
South Region Fisheries Supervisor
