Re: Letter of support for Glendale Lake, Cambria Co.

Mr. Stockley,

The Pennsylvania Fish and Boat Commission (PFBC) fully supports the proposed habitat projects at Glendale Lake. The proposed habitat improvement structures will reduce erosion and nutrients entering the watershed while improving both aquatic and terrestrial habitat. The PFBC will provide in-kind service and partial material funding to complete both the shoreline and submerged fish habitat improvement structures at Glendale Lake. We look forward to working with you and other project partners on this as it supports the mission of the PFBC.
