

August 10, 2020

The Tri-County Bass Anglers Club is working as a partner with the Indiana Division of Fish and Wildlife on our impoundment aquatic habitat improvement program. The Patoka Lake habitat project is included under this program.

The club is providing much needed labor and financial assistance for this program. The Division of Fish and Wildlife fully supports the Tri-County Bass Anglers Club inclusion in this project and for the Friends of Reservoirs small grant they are applying for to add to the Patoka Lake habitat project.

Sincerely,

A handwritten signature in blue ink that reads "Dan Carnahan". The signature is written in a cursive style.

Dan Carnahan
South Region Fisheries Supervisor
